

STOP damage to freight by coupling cars NOT OVER 4 MILES PER HOUR

RULE Y.

When cars are placed or left on any track, sufficient hand brakes must be applied to prevent cars from moving and in addition when necessary the wheels must be blocked.

SAFETY RULES.

Employes ascending or descending from top of a car must not use brake wheel as a hand-hold.

Before operating hand brake, obtain firm foot-hold on brake step.

Exercise care to avoid injury from:

- (a) Brake club slipping in wheel.(b) Brake wheel spinning around.
- (c) Slipping and falling, sprain or strain from losing hold, footing or balance.

Trains having direct connections should wait if connection is in sight, or known to be close but if passengers are reported will be governed by table above.

In the event of any trains being too late to permit making above connections within the authorized holding time, or if special parties are being handled which would seem to justify extending the authorized holding time, matter should be taken up with Superintendent of Transportation. Conductors should, in all cases, when running late, notify Chief Train Dispatcher of any passengers on their trains desiring to make connections at junction points.
